EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Patti Jurkovich on 1/5/2004.

The application has been amended as follows:

In the Claims:

Cancelled claims 13-16.

In claim 17, line 1, deleted "which is effective in decreasing" and substituted therefor

-- comprising an effective amount of heme to decrease--.

In claim 17, line 2, deleted "comprising; animal feed; and substantially purified heme".

Reasons for allowance

The closest prior art of record as listed on the PTO form-892, especially US Patent 4330463, teach the addition of isolated and purified heme to animal feed, but does not teach or fairly suggest that the use of heme in animal feed

Art Unit: 1761

decreases the average daily feed intake of animals or that it improves the meat quality of animals.
